

When the load can't come to the scale, take the scale to the load!

Introducing the revolutionary **Ansutek P1A Portable** ultra light electronic platform scale.

The Ansutek P1A Portable Hospital Scale is engineered to accommodate larger people, big enough to allow a chair to be placed on the platform, optional ramps and side railings, built in overload protection along with reliability and ease of use.

- New integral construction with optional portable printer
- In built re-chargeable battery
- Capacity 500kg
- Bright red LED display
- Powered by AC/DC
- 600mm x 450mm

"Lovely scales...a lot of people have made great comments about them and they are ideal for clinics, slimfast groups and weight watcher groups etc".

Amy Liu
